Index to Volume 1

1 is the Winter 1990/91 issue
2 is the Spring 1991 issue
3 is the Summer 1991 issue
4 is the Autumn 1991 issue

AUTHORS

Bailey, Paul, Huffman, Larry, and Karam, Joseph. Estimating the Costs of Corrective Action at Land Disposal Facilities, No. 1, 19-29

Bell, Brian M., and Giese, Raymond G. Effective Low-Temperature Thermal Aeration of Soils, No. 4, 461-472

Braden, Merle. Reducing Costs by Using Value Engineering on Superfund Projects, No. 1, 3-10

Chrostowski, Paul C., Durda, Judi L., and Edelmann, Kristen G. The Use of Natural Processes for the Control of Chromium Migration, No. 3, 341-351

Cioffi, John C., Mahaffey, William R., and Whitlock, Tanni M. Successful Solid-Phase Bioremediation of Petroleum Contaminated Soil, No. 4, 373-389

Cressman, Kenneth R. Cost Estimating of the Closure/Post Closure Phase, No. 3, 331-339

Cundy, V.A., Sterling, A.M., Jakway, A.L., Montestruc, A.N., Owens, W.D., and Leger, C.B. Field-Scale Rotary Kiln Incineration: Oxygen Responses at the Kiln, Afterburner, and Stack, No. 3, 275-291

DiAntonio, Katherine, Tillman, David A., Seeker, W. Randall, and Pershing, David W. Developing Incineration Process Designs and Remediation Projects from Treatability Studies, No. 3, 251-273

Diot, Harold R., and Young, Derrell T. Fluidized Bed PCB Incineration in Alaska, No. 2, 199-209

Durda, Judi L., Edelmann, Kristen G., and Chrostowski, Paul C. The Use of Natural Processes for the Control of Chromium Migration, No. 3, 341-351

Edelmann, Kristen G., Chrostowski, Paul C., and Durda, Judi L. The Use of Natural Processes for the Control of Chromium Migration, No. 3, 341-351

Fletcher, David B. Successful UV/Oxidation of VOC-Contaminated Groundwater, No. 3, 353-357

Fox, Catherine A. Review of Recent Publications, No. 1, 103-109

Fox, Catherine A. Review of Recent Publications, No. 2, 243-248

Fox, Catherine A. Review of Recent Publications, No. 3, 367-370

Fox, Catherine A. Review of Recent Publications, No. 4, 501-504

Fox, Catherine A. Status and Trends in Bioremediation Treatment Technology, No. 3, 293-303

Fujisaki, Kuniko, Portier, Ralph J., and Zoeller, Anne L. Bioremediation of Pesticide-Contaminated Groundwater, No. 1, 41-60

Giese, Raymond G., and Bell, Brian M. Effective Low-Temperature Thermal Aeration of Soils, No. 4, 461-472

Graves, Duane, and Leavitt, Maureen. Petroleum Biodegradation in Soil: The Effect of Direct Application of Surfactants, No. 2, 147-166

Hale, Nancy. From the Editor, No. 2, 111-112

Hale, Nancy. From the Editor, No. 3, 249-250

Hale, Nancy. From the Editor, No. 4, 371-372

Hay, George H., and McCartney, Gregory J. Mobile Infrared Incineration of PCB-Contaminated Soils, No. 2, 211-226

Hickey, Robert F., Wagner, Daniel, and Mazewski, Gene. Treating Contaminated Groundwater Using a Fluidized-Bed Reactor, No. 4, 447-460

Hopkins, Loren, and LaGoy, Peter K. Developing Site-Specific Cleanup Levels: Practical Considerations, No. 2, 113-121

Huenefeld, Bruce, Irrgang, Gene, and Tischler, Jo Ann. Selecting State-of-the-Art Incinerators for Complex Aqueous Wastes, No. 4, 407-418

Huffman, Larry, Karam, Joseph, and Bailey, Paul. Estimating the Costs of Corrective Action at Land Disposal Facilities, No. 1, 19-29

Irrgang, Gene, Tischler, Jo Ann, and Huenefeld, Bruce. Selecting State-of-the-Art Incinerators for Complex Aqueous Wastes, No. 4, 407-418

Jakway, A.L., Leger, C.B., Cundy, V.A., Sterling, A.M., Montestruc, A.N., and Owens, W.D. Field-Scale Rotary Kiln Incineration: Oxygen Responses at the Kiln, Afterburner, and Stack, No. 3, 275-291

Johnson, Robert E. Interim Pump-and-Treat Remediation of a Hydrocarbon-Contaminated Aquifer, No. 2, 123-146

Karam, Joseph, Bailey, Paul, and Huffman, Larry. Estimating the Costs of Corrective Action at Land Disposal Facilities, No. 1, 19-29

King, Charly, Richards, Marta K., Thurnau, Robert C., and Waterland, Larry R. Incineration Treatment of Arsenic-Contaminated Soil, No. 2, 227-237

LaGoy, Peter K., and Hopkins, Loren. Developing Site-Specific Cleanup Levels: Practical Considerations, No. 2, 113-121

Leavitt, Maureen, and Graves, Duane. Petroleum Biodegradation in Soil: The Effect of Direct Application of Surfactants, No. 2, 147-166

Leger, C.B., Cundy, V.A., Sterling, A.M., Montestruc, A.N., Jakway, A.L., and Owens, W.D. Field-Scale Rotary Kiln Incineration: Oxygen Responses at the Kiln, Afterburner, and Stack, No. 3, 275-291

Linz, David G., Middleton, Andrew C., and Nakles, David V. The Influence of Soil Composition on the Bioremediation of PAH-Contaminated Soils, No. 4, 391-406

Mahaffey, William R., and Sanford, Robert A. Bioremediation of PCP-Contaminated Soil: Bench to Full-Scale Implementation, No. 3, 305-323

Mahaffey, William R., Whitlock, Tanni M., and Cioffi, John C. Successful Solid-Phase Bioremediation of Petroleum Contaminated Soil, No. 4, 373-389

Marshall, Thomas C., and Sieg, Philip M. A Risk-Based Approach to How Clean Is Clean, No. 1, 11-18

Matthews, John E., Sewell, Guy W., and Russell, Hugh H. Remediation of Sites Contaminated with TCE, No. 2, 167-183

Mazewski, Gene, Hickey, Robert F., and Wagner, Daniel. Treating Contaminated Groundwater Using a Fluidized-Bed Reactor, No. 4, 447-460

McCartney, Gregory J., and Hay, George H. Mobile Infrared Incineration of PCB-Contaminated Soils, No. 2, 211-226

McCulloch, John I.B., and Simon, John A. EPA-Accepted Technologies, No. 3, 359-365

Middleton, Andrew C., Nakles, David V., and Linz, David G. The Influence of Soil Composition on the Bioremediation of PAH-Contaminated Soils, No. 4, 391-406

Montestruc, A.N., Leger, C.B., Cundy, V.A., Sterling, A.M., Jakway, A.L., and Owens, W.D. Field-Scale Rotary Kiln Incineration: Oxygen Responses at the Kiln, Afterburner, and Stack, No. 3, 275-291

Nakles, David V., Linz, David G., and Middleton, Andrew C. The Influence of Soil Composition on the Bioremediation of PAH-Contaminated Soils, No. 4, 391-406

Owens, W.D., Leger, C.B., Cundy, V.A., Sterling, A.M., Montestruc, A.N., and Jakway, A.L. Field-Scale Rotary Kiln Incineration: Oxygen Responses at the Kiln, Afterburner, and Stack, No. 3, 275-291

Palermo, Michael R. Equipment Choices for Dredging Contaminated Sediments, No. 4, 473-492

Pershing, David W., DiAntonio, Katherine, Tillman, David A., and Seeker, W. Randall. Developing Incineration Process Designs and Remediation Projects from Treatability Studies, No. 3, 251-273

Wallace, William A. New Paradigms for Hazardous Waste Engineering, No. 4, 419-445
Waterland, Larry R., King, Charly, Richards, Marta K. and Thurnau, Robert C. Incineration Treatment of Arsenic-Contaminated Soil, No. 2, 227-237
Whitlock, Tanni M., Cioffi, John C., and Mahaffey, William R. Successful Solid-Phase Bioremediation of Petroleum Contaminated Soil, No. 4, 373-389
Young, Derrell T., and Diot, Harold R. Fluidized Bed PCB Incineration in Alaska, No. 2, 199-209
Zoeller, Anne L., Fujisaki, Kuniko, and Portier, Ralph J. Bioremediation of Pesticide-Contaminated Groundwater, No. 1, 41-60

AQUIFER REMEDIATION

Interim Pump-and-Treat Remediation of a Hydrocarbon-Contaminated Aquifer, Robert E. Johnson, No. 2, 123-146

Literature Reviewed

In Situ *Restoration of Chlorinated Aliphatics by Methanotrophic Bacteria*, U.S. Environmental Protection Agency, Robert S. Kerr Environmental Research Laboratory, No. 3, 369-370

BIOREMEDIATION

Bioremediation of PCP-Contaminated Soil: Bench to Full-Scale Implementation, William R. Mahaffey and Robert A. Sanford, No. 3, 305-323

Bioremediation of Pesticide-Contaminated Groundwater, Ralph J. Portier, Anne L. Zoeller, and Kuniko Fujisaki, No. 1, 41-60

Reductive Dehalogenation: A Subsurface Bioremediation Process, Judith L. Sims, Joseph M. Suflita, and Hugh H. Russell, No. 1, 75-93

Slurry-Phase Bioremediation: Case Studies and Cost Comparisons, Derek Ross, No. 1, 61-74

Status and Trends in Bioremediation Treatment Technology, Catherine A. Fox, No. 3, 293-303

Successful Solid-Phase Bioremediation of Petroleum Contaminated Soil, John C. Cioffi, William R. Mahaffey, and Tanni M. Whitlock, No. 4, 373-389

The Influence of Soil Composition on the Bioremediation of PAH-Contaminated Soils, Andrew C. Middleton, David V. Nakles, and David G. Linz, No. 4, 391-406

The Process and Potential of Bioremediation, Barry Shorthouse, No. 1, 31-40

Literature Reviewed

Bioremediation of Contaminated Surface Soils, U.S. Environmental Protection Agency, Environmental Research Laboratory, No. 1, 109

Bio Bonanza?, Austin (*Civil Engineering*, Vol. 60, No. 4), No. 1, 104

Bioremediation in Alaska, Pritchard and Costa (*Environmental Science and Technology*, Vol. 24, No. 3), No. 4, 501

Evaluation of Biofilm Development on Various Natural and Synthetic Media, Pirbazari, Voice, and Weber (*Hazardous Waste & Hazardous Materials*, Vol. 7, No. 3), No. 2, 243-244

In Situ Biorestoration of Chlorinated Aliphatics, Semprini and McCarty (*Groundwater*, Vol. 29, No. 3), No. 4, 502-503

Onsite Treatment of Pesticide Waste and Rinsate Using Ozone and Biologically Active Soil, Somich, Muldoon, and Kearney (*Environmental Science and Technology*, Vol. 24, No. 5), No. 1, 104

BIOTECHNOLOGY

Literature Reviewed

Environmental Biotechnology: Reducing Risks from Environmental Chemicals through Biotechnology, Omenn, ed., No. 1, 106-107

CHROMIUM MIGRATION

The Use of Natural Processes for the Control of Chromium Migration, Paul C. Chrostowski, Judi L. Durda, and Kristen G. Edelmann, No. 3, 341-351

CLEANUP CRITERIA

A Risk-Based Approach to How Clean Is Clean, Thomas C. Marshall and Philip M. Sieg, No. 1, 11-18

Developing Site-Specific Cleanup Levels: Practical Considerations, Peter K. LaGoy and Loren Hopkins, No. 2, 113-121

New Paradigms for Hazardous Waste Engineering, William A. Wallace, No. 4, 419-455

CONTAMINATED SEDIMENTS

Literature Reviewed

Contaminated Marine Sediments—Assessment and Remediation, National Research Council, No. 2, 245

The Dredging Dilemma, Fairweather (*Civil Engineering*, Vol. 60, No. 8), No. 2, 243

Equipment Choices for Dredging Contaminated Sediments, Michael R. Palermo, No. 4, 473-492

COSTS

Cost Estimating of the Closure/Post Closure Phase, Kenneth R. Cressman, No. 3, 331-339

Estimating the Costs of Corrective Action at Land Disposal Facilities, Larry Huffman, Joseph Karam, and Paul Bailey, No. 1, 19-29

Reducing Costs by Using Value Engineering on Superfund Projects, Merle Braden, No. 1, 3-10

Literature Reviewed

A Guide to Controlling Site Remediation Costs, Fender (*Pollution Engineering*, Vol. 22, No. 12), No. 3, 367

Cleanup Costs: Groundwater Protection and Leachate Control (*Hazardous Materials Control*, Vol. 3, No. 4), No. 2, 244

DREDGING EQUIPMENT

Equipment Choices for Dredging Contaminated Sediments, Michael R. Palermo, No. 4, 473-492

ELECTROKINETICS

Literature Reviewed

The Use of Electrokinetics for Hazardous Waste Site Remediation, Cabrera-Guzman, Swartzbaugh, and Weisman (*J. Air Waste Manage. Assoc.*, Vol. 40, pp. 1670-1676), No. 3, 368

EPA's SITE PROGRAM

Literature Reviewed

CF Systems Organics Extraction Process, New Bedford Harbor, MA, U.S. Environmental Protection Agency, Office of Research and Development, No. 3, 370

1990 Update of the U.S. Environmental Protection Agency's SITE Emerging Technology Program, Sanning and Lewis (*J. Air Waste Manage. Assoc.*, Vol. 40, No. 12), No. 3, 367-368

The Superfund Innovative Technology Evaluation Program: Technology Profiles, U.S. Environmental Protection Agency, Office of Solid Waste and Emergency Response, No. 2, 248

GROUNDWATER CONTAMINATION

Bioremediation of Pesticide-Contaminated Groundwater, Ralph J. Portier, Anne L. Zoeller, and Kuniko Fujisaki, No. 1, 41-60

Interim Pump-and-Treat Remediation of a Hydrocarbon-Contaminated Aquifer, Robert E. Johnson, No. 2, 123-146

Successful UV/Oxidation of VOC-Contaminated Groundwater, David B. Fletcher, No. 3, 353-357

Remediation of Sites Contaminated with TCE, Hugh H. Russell, John E. Matthews, and Guy W. Sewell, No. 2, 167-183

Treating Contaminated Groundwater Using a Fluidized-Bed Reactor, Gene Mazewski, Robert F. Hickey, and Daniel Wagner, No. 4, 447-460

Literature Reviewed

Basics of Pump-and-Treat Groundwater Technology, U.S. Environmental Protection Agency, Robert S. Kerr Environmental Research Laboratory, No. 2, 247-248

Evaluation of Ground Water Extraction Remedies, Volume 1, Summary Report, U.S. Environmental Protection Agency, Office of Emergency and Remedial Response, No. 1, 108-109

Ground Water Issue: Performance Evaluations of Pump and Treat Remediations, U.S. Environmental Protection Agency, Office of Solid Waste and Emergency Response, No. 1, 107-108

HAZARDOUS WASTE ENGINEERING

New Paradigms for Hazardous Waste Engineering, William A. Wallace, No. 4, 419-445

INCINERATION

Developing Incineration Process Designs and Remediation Projects from Treatability Studies, David A. Tillman, W. Randall Seeker, Katherine DiAntonio, and David W. Pershing, No. 3, 251-273

Field-Scale Rotary Kiln Incineration: Oxygen Responses at the Kiln, Afterburner, and Stack, C.B. Leger, V.A. Cundy, A.N. Montestruc, A.L. Jakway, W.D. Owens, and A.M. Sterling, No. 3, 275-291

Fluidized Bed PCB Incineration in Alaska, Harold R. Diot and Derrell T. Young, No. 2, 199-209

Incineration Treatment of Arsenic-Contaminated Soil, Larry R. Waterland, Charly King, Marta K. Richards, and Robert C. Thurnau, No. 2, 227-237

Mobile Infrared Incineration of PCB-Contaminated Soils, George H. Hay and Gregory J. McCartney, No. 2, 211-226
Selecting State-of-the-Art Incinerators for Complex Aqueous Wastes, Jo Ann Tischler, Bruce Huenefeld, and Gene Irrgang, No. 4, 407-418

LAND DISPOSAL FACILITIES
Estimating the Costs of Corrective Action at Land Disposal Facilities, Larry Huffman, Joseph Karam, and Paul Bailey, No. 1, 19-29

LIABILITY INSURANCE
Literature Reviewed
Insurance May Cover Cost of Environmental Cleanup, Anderson and Fried (*Pollution Engineering*, Vol. 23, No. 4), No. 4, 501-502

MONITORING AND CONTROL
Remote Monitoring and Control of Hazardous Waste Remediation Activities, Barry L. Shirk, No. 3, 325-330

NONAQUEOUS PHASE LIQUIDS
Literature Reviewed
NAPL Properties and Behavior in the Subsurface, Mercer and Cohen (*Journal of Contaminant Hydrology*, Vol. 6, pp. 107-163), No. 4, 502

ORGANIC CHEMICALS
Literature Reviewed
Fate and Exposure Data for Organic Chemicals, Volume I, Howard, ed., No. 2, 245-246
Fate and Exposure Data for Organic Chemicals, Volume II, Howard, ed., No. 4, 503

PETROLEUM CONTAMINATION
Interim Pump-and-Treat Remediation of a Hydrocarbon-Contaminated Aquifer, Robert E. Johnson, No. 2, 123-146
Petroleum Biodegradation in Soil: The Effect of Direct Application of Surfactants, Duane Graves and Maureen Leavitt, No. 2, 147-166
Successful Solid-Phase Bioremediation of Petroleum Contaminated Soil, John C. Cioffi, William R. Mahaffey, and Tanni M. Whitlock, No. 4, 373-389
The Influence of Soil Composition on the Bioremediation of PAH-Contaminated Soils, Andrew C. Middleton, David V. Nakles, and David G. Linz, No. 4, 391-406

Literature Reviewed
Petroleum Contaminated Soils: Remediation Techniques, Environmental Fate, and Risk Assessment, Vol. 1, Kostecki and Calabrese, eds., No. 1, 105-106

PUMP-AND-TREAT REMEDIATION
Interim Pump-and-Treat Remediation of a Hydrocarbon-Contaminated Aquifer, Robert E. Johnson, No. 2, 123-146

RCRA
The Proposed RCRA Corrective Action Rule and Its Effect on Remediation Technologies, John A. Simon, No. 2, 185-197

RECENT DEVELOPMENTS IN CLEANUP TECHNOLOGIES
APEG-Plus Decontamination of Dioxin-Contaminated Sludge, Robert Peterson, No. 2, 239-242
EPA-Accepted Cleanup Technologies, John A. Simon, No. 1, 103-109
EPA-Accepted Technologies, John A. Simon and John I.B. McCulloch, No. 3, 359-365

RISK ASSESSMENT
A Risk-Based Approach to How Clean Is Clean, Thomas C. Marshall and Philip M. Sieg, No. 1, 11-18

Literature Reviewed
The Use of Expert Systems to Assist in Decisions Concerning Environmental Control, Greathouse, Clements, and Morris (*Critical Reviews in Environmental Control*, Vol. 19, Issue 4), No. 1, 104

SOIL CONTAMINATION
Bioremediation of PCP-Contaminated Soil: Bench to Full-Scale Implementation, William R. Mahaffey and Robert A. Sanford, No. 3, 305-323

Incineration Treatment of Arsenic-Contaminated Soil, Larry R. Waterland, Charly King, Marta K. Richards, and Robert C. Thurnau, No. 2, 227-237
Effective Low-Temperature Thermal Aeration of Soils, Raymond G. Giese and Brian M. Bell, No. 4, 461-472
Mobile Infrared Incineration of PCB-Contaminated Soils, George H. Hay and Gregory J. McCartney, No. 2, 211-226
Remediation of Sites Contaminated with TCE, Hugh H. Russell, John E. Matthews, and Guy W. Sewell, No. 2, 167-183
Successful Solid-Phase Bioremediation of Petroleum Contaminated Soil, John C. Cioffi, William R. Mahaffey, and Tanni M. Whitlock, No. 4, 373-389
The Influence of Soil Composition on the Bioremediation of PAH-Contaminated Soils, Andrew C. Middleton, David V. Nakles, and David G. Linz, No. 4, 391-406

Literature Reviewed
Handbook on In Situ Treatment of Hazardous Waste-Contaminated Soils, U.S. Environmental Protection Agency, Risk Reducation Engineering Laboratory, No. 2, 246-247

SUBSURFACE CONTAMINATION
Literature Reviewed
NAPL Properties and Behavior in the Subsurface, Mercer and Cohen (*Journal of Contaminant Hydrology*, Vol. 6, pp. 107-163), No. 4, 502
Subsurface Contamination Reference Guide, U.S. Environmental Protection Agency, Office of Emergency and Remedial Response, No. 4, 503-504

SUPERFUND
Reducing Costs by Using Value Engineering on Superfund Projects, Merle Braden, No. 1, 3-10

Literature Reviewed
The Superfund Innovative Technology Evaluation Program: Technology Profiles, U.S. Environmental Protection Agency, Office of Solid Waste and Emergency Response, No. 2, 248

SURFACTANTS
Petroleum Biodegradation in Soil: The Effect of Direct Application of Surfactants, Duane Graves and Maureen Leavitt, No. 2, 147-166

TECHNOLOGY
Literature Reviewed
Environmental Challenge: Technological Response, White and Rod (*Environmental Science and Technology*, Vol. 24, No. 4), No. 1, 103
Pollution Prevention: Implications for Engineering Design, Research, and Education, Friedlander (*Environment*, Vol. 31, No. 4), No. 1, 103-104

THERMAL REMEDIATION
Effective Low-Temperature Thermal Aeration of Soils, Raymond G. Giese and Brian M. Bell, No. 4, 461-472

Literature Reviewed
Hazardous Waste and Hazardous Materials, special issue (Vol. 7, No. 1), No. 1, 104-105
Fundamentals for the Thermal Remediation of Contaminated Soils: Particle and Bed Desorption Models, Lightly, Silcox, Pershing, Cundy, and Linz (*Environmental Science and Technology*, Vol. 24, No. 5), No. 1, 105

TREATABILITY STUDIES
Developing Incineration Process Designs and Remediation Projects from Treatability Studies, David A. Tillman, W. Randall Seeker, Katherine DiAntonio, and David W. Pershing, No. 3, 251-273

Literature Reviewed
Guide for Conducting Treatability Studies Under CERCLA—Interim Final, Office of Emergency and Remedial Response, No. 4, 504

UV/OXIDATION
Successful UV/Oxidation of VOC-Contaminated Groundwater, David B. Fletcher, No. 3, 353-357

VACUUM EXTRACTION
Literature Reviewed
Vaporizing VOC's, Hutzler, Gierke, and Murphy (*Civil Engineering*, Vol. 60, No. 4), No. 1, 105

WASTEWATER
Literature Reviewed
Treating Wastewater, Cheremisinoff (*Pollution Engineering*, Vol. 22, No.9), No. 2, 244
